TECHNICAL PRESERVATION SERVICES

PUBLICATIONS AND PRICE LIST

November 1983

Technical Preservation Services (TPS) is a branch of the Preservation Assistance Division of the National Park Service, and is responsible for setting standards and guidelines for work undertaken on historic buildings. TPS has developed and disseminated over 35 publications in the past several years on technical preservation problems and rehabilitation techniques for historic buildings. Many of these publications have been developed to provide guidance on acceptable rehabilitation treatments for historic preservation certification applicants who are requesting Federal tax benefits for their rehabilitation work. The 1981 Economic Recovery Tax Act provides benefits for owners of commercial historic properties who receive certification.

The publications developed by Technical Preservation Services generally fall into four categories: Preservation Tax Incentives Program Information, Preservation Briefs, Preservation Case Studies, and Technical Reports. The publications in this list are grouped in these categories. Each publication is briefly described and order information is provided. **All publications with stock numbers are only available from the U.S. Government Printing Office.**

PRESERVATION TAX INCENTIVES PROGRAM INFORMATION This essential material includes an explanation of the application process for certification of rehabilitation work; the standards against which rehabilitation work is evaluated; and some of the different tax benefits available in the Economic Recovery Tax Act of 1981.

Single copies of this material can be obtained by writing: TPS, Preservation Assistance Division, National Park Service, Washington, D.C. 20240, or one of the National Park Service regional offices listed on page 11.

The Secretary of the Interior's Standards for Historic Preservation Projects with Guidelines for Applying the Standards by W. Brown Morton III and Gary L. Hume. In addition to the section on rehabilitation (see below), this includes guidance on other historic preservation treatments: acquisition, protection, stabilization, preservation, restoration, and reconstruction on National Register properties and certified historic structures. 46 pages. 1979.

The Secretary of the Interior's Standards for Rehabilitation with Guidelines for Rehabilitating Historic Buildings. This is one section of "The Secretary of the Interior's Standards for Historic Preservation Projects" (see listing above). The updated, expanded guidelines developed by Gary L. Hume and Kay D. Weeks in this 1983 revision provide a model process for owners, developers, and local officials to follow in planning and carrying out rehabilitation work for historic neighborhoods, commercial areas, and buildings in accordance with provisions of the Tax Reform Act of 1976, the Revenue Act of 1978, and the Economic Recovery Tax Act of 1981. 61 pages. Rev. September,1983.

Tax Incentives for Rehabilitating Historic Buildings Program leaflet. Explains the Federal tax incentives available to owners who rehabilitate commercial historic structures. Includes an outline of the certification process, program regulations, and a list of State Historic Preservation Officers. 12 pages. May,1982.

Tax Incentives: New Investment Opportunities Text prepared by the National Register and Technical Preservation Services staff, National Park Service, U.S. Department of the Interior, and printed as a newspaper supplement to Preservation News of the National Trust for Historic Preservation. Explains the Federal tax incentives available under the 1981 Economic Recovery Tax Act through 35 questions and answers, 3 case studies, answers the primary question "Will your building qualify? How to tell," and includes the Secretary of the Interior's Standards for Rehabilitation and Standards for Evaluating Structures Within Registered Historic District. 8 pages. November,1981.

PRESERVATION BRIEFS are prepared for building owners to assist them in evaluating and resolving common preservation and repair problems. The briefs are often given to preservation tax incentives program applicants to help explain recommended historic preservation methods and approaches in the rehabilitation of historic buildings.

Copies, except where noted, are available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402; telephone number: 202-783-3238; (see page 12 for a list of Government Printing Office Bookstores). PRESERVATION CASE STUDIES provide practical, solution-oriented information to developers and building owners by discussing and reviewing the course of action taken on a specific building. Some of the most important work in rehabilitating a historic building takes place in the planning of the work and in developing financing strategies to achieve a successful development. These case studies provide good examples of planning methodology, financing strategies or innovative rehabilitation techniques.

Copies, except where noted, are available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402; telephone number: 202-783-3238; (see page 12 for a list of Government Printing Offices Bookstores).
